**TC ANALYZE™**

# The Industry's Most Widely Adopted Threat Intelligence Platform

TC ANALYZE™

## Create and Analyze Threat Intelligence

TC Analyze™ was built for analysts, by analysts. Easily enrich threat data and create intelligence to give your team insights and prioritize their efforts. TC Analyze is built on the ThreatConnect Platform, providing a central place to see your team's tasks, analyze your data, and use all of your security tools. No matter what your team size, ThreatConnect will make you more efficient and effective.

## Gain visibility into your network threats

- Easily search the platform to get all available information about a threat
- Aggregate and normalize threat data from any source
- Validate your findings with other ThreatConnect users in ThreatConnect's Common Community
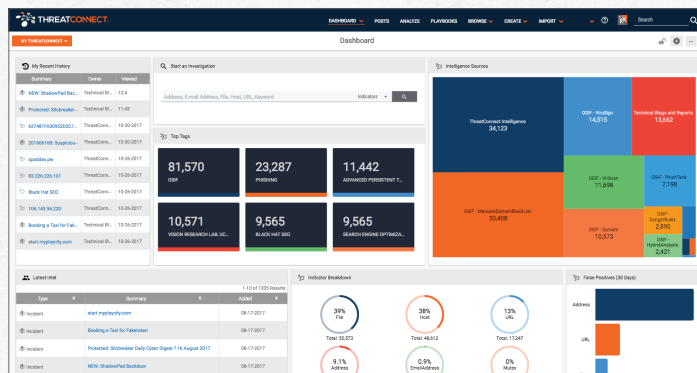

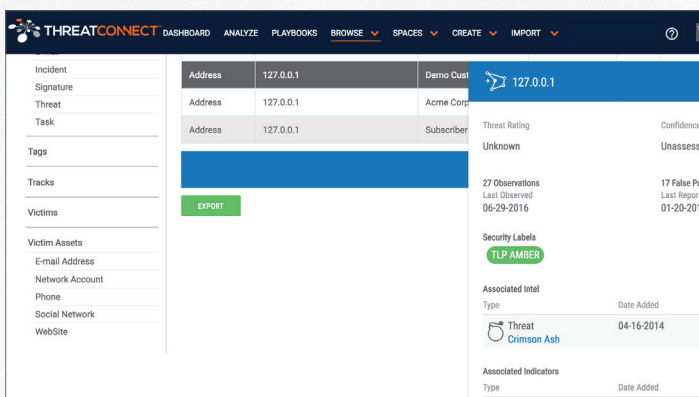

## Get the context you need to make data-driven decisions

- View how often indicators are observed, viewed, and more with ThreatConnect's CAL™ (Collective Analytics Layer)
- Instantly view false positive counts per indicator
- Find out what your industry peers are experiencing in ThreatConnect's industry-specific private communities

## Decrease fragmentation in your organization

- Link all of your tools using ThreatConnect's open API and 100+ out-of-the-box integrations
- Automatically share indicators to the relevant tool or system
- Enable collaboration between various teams (such as incident response, SOCs, or threat intel teams)
