TC COMPLETE™

# Security Operations and Analytics Platform

Establish a More Intelligent Security Program

TC Complete™ includes all of the features ThreatConnect® has to offer – allowing for informed decision-making based on the power of your organization's threat intelligence. For the first time, you can orchestrate your security processes, analyze your data, and proactively hunt threats in one central place. Like ThreatConnect's other products, TC Complete is built on the ThreatConnect Platform – providing not only the ability to orchestrate your security functions, but also the confidence that you are basing your decisions and tasks on vetted, relevant threat intelligence.

GAIN VISIBILITY
Explore who is attacking your organization and how

- Aggregate and normalize threat data from any source
- View how often indicators are observed, how relevant they are, and more with ThreatConnect's Collective Analytics Layer
- Easily see Platform ratings, team votes, and false positive counts per indicator or incident

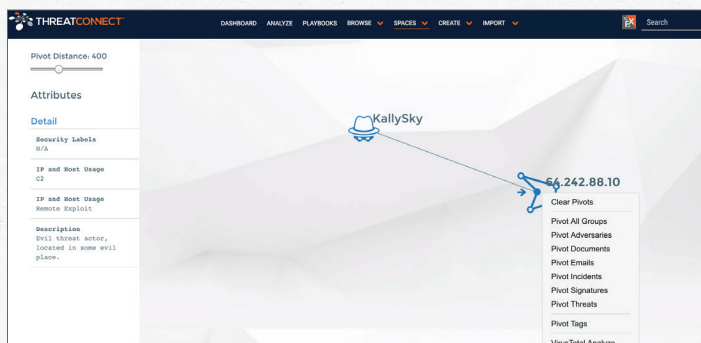

MAXIMIZE EFFICIENCY
Make your analysts' lives easier

- Create automated, configurable Playbooks in a single click – no coding needed
- Automate nearly any security operation or task, such as sending alerts, enriching data, or assigning tasks to your team
- Time consuming tasks are reduced from hours or days to seconds

TAKE CONTROL
Configure the platform for your exact need

- Proactively hunt threats in your network
- Build custom apps and Spaces using ThreatConnect's three software development kits (SDKs)
- Customize indicators, attributes, import rules, and more
- Create private communities for secure, role-based collaboration

WHY THREATCONNECT?

Find Threats, Evaluate Risk, and Mitigate Harm to Your Organization

The ThreatConnect Platform was specifically designed to help you understand adversaries, automate workflows, and mitigate threats faster using threat intelligence. With TC Complete, you have a central place to manage all of your security operations and analytics – from orchestration to data enrichment to task management and more. Using a single platform you are able to quickly add context to your data, take actions with your defensive tools, and make faster, more informed decisions about your organization's security.

ANALYTICS

In **TC Complete**, Threat Intelligence flows through every aspect of your security program; your entire team is connected to the intelligence, each other, and the tools; and a feedback loop from the people and tools is built-in to constantly improve the intelligence. And, analytics are constantly being brought to bear in the entire process to enable sound, fast decision-making.

About ThreatConnect®

ThreatConnect arms organizations with a powerful defense against cyber threats and the confidence to make strategic business decisions. Built on the industry's only intelligence-driven, extensible security platform, ThreatConnect provides a suite of products designed to meet the threat intelligence aggregation, analysis and automation needs of security teams at any maturity level. More than 1,600 companies and agencies worldwide deploy the ThreatConnect platform to fully integrate their security technologies, teams, and processes with relevant threat intelligence resulting in reduced detection to response time and enhanced asset protection.
