TC IDENTIFY™

# Threat Intelligence Delivered with ThreatConnect

TC IDENTIFY™

Get More Than Just a List of Indicators

TC Identify™ provides vetted, actionable threat intelligence compiled from our own ThreatConnect Research Team, more than 100 open source feeds, crowdsourced intelligence from within our dozens of communities, and the option to add intelligence from any of our TC Exchange™ partners. The intelligence leverages the full power of the ThreatConnect data model plus automated enrichments for robust analyst-curated context. Intelligence delivered within the ThreatConnect Platform tells the story behind the activity and shows how it is tied to other events in the Platform – providing the full picture, so you can make a confident decision on how to act.

REDUCE FALSE POSITIVES
Enhance detection in your organization

- Easily send threat intel to your tools (like a SIEM or a firewall) as indicators of compromise and Yara rules
- Instantly see platform ratings, team votes, and observation count per indicator or incident
- View how often and how recently an indicator has been marked as a false positive
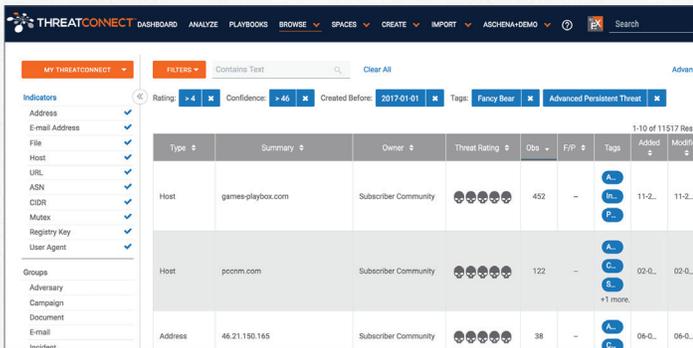

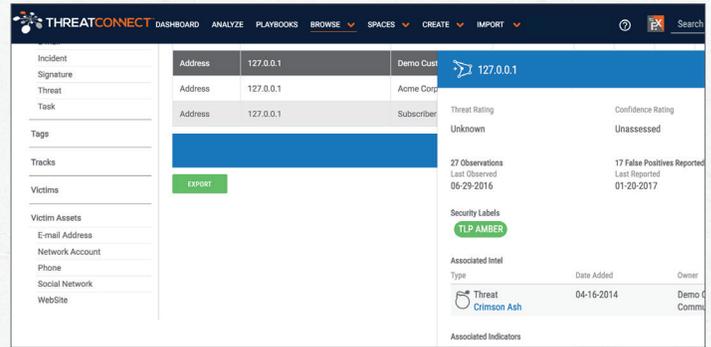

AGGREGATE THREAT DATA
All of your data in one place

- Combine your premium sources with 100+ OSINT feeds
- Add tags and attributes to segment your data for further analysis (for example, look at all data with a 'APT' or a 'Fancy Bear' tag)
- Create custom filters, write queries, and view observation counts on our Browse Screen

UNMASK ADVERSARIES
Get access to our ThreatConnect Research Team

- Get analyst-curated threat intelligence from our in-house Research team – not just a list of indicators
- View their world-renowned research on events like the DNC Hack, the Anthem Breach, and more
- Access exclusive ThreatConnect Incidents containing information on targeted attacks and crimeware
